Sport:

Level 3 Foundation Diploma (90 Credit)

Duration 1 year full-time
How to apply Application form

Location Clifton
Trent Bridge

I would like a career in:

The Sport and Leisure industry including cricket specific roles, Sport Development Officer, Sport Performer and Coaching, PE Teaching or working in the Health, Fitness and Exercise industry.

What will I be doing?

There are excellent opportunities to gain experience in a range of roles which may include assisting at major match cricket at Trent Bridge and working in local schools and clubs. The course is for one year, and equivalent to 1.5 A Levels, with most learners extending their course into a second year studying the BTEC Extended Diploma.

Units may include: Anatomy and Physiology; Fitness Training; Professional Development; Sport Leadership; Sport Psychology; Sport Coaching; Practical Sport Performance. Further opportunities exist to undertake cricket specific coaching, umpiring and leadership qualifications. You will also receive high quality cricket coaching and get to play in college competitions.

Why is studying English and Maths important?

English and Maths are an essential part of your studies and will help you succeed on your course. These subjects help you develop confidence and are key employability skills that recruiting employers look for. If you have not achieved GCSE grade C or above in English and Maths you will need to continue studying these subjects. We will ensure you have the right lessons and support to improve your English and Maths.

Enterprise Skills

Our full-time courses are designed to help you achieve your ambitions whether your goal is to go on to a higher level of study or whether you are looking to start a job. Therefore as part of your course there will be employability and study skills (we call these PD Central) that are included to meet your needs and those of the industry you want your career in.

What do I need to get on the course?

One of the following:

- 5 GCSEs at grades A*-C including English Language and Maths*
- A relevant Level 2 qualification including GCSE English Language and Maths* at grade A*-C

If you do not have GCSE Maths at A-C, we may accept a grade D in addition to your 5 GCSEs at A*-C.

*Functional Skills may be accepted instead of GCSE English and/or Maths. Functional Skills Level 1 is equivalent to GCSE Grade D and Level 2 to GCSE Grade C.

A GCSE resit will be required for all learners if they don't have a grade C or above in Maths and gain entry via functional skills equivalent qualifications.

How do I pass the course?

Assessment is from a wide range of methods including essays, external assessments, reports, practical coaching, practical performance, discussions and presentations.

What will my qualification be?

- Pearson Level 3 Foundation Diploma (90 Credit) in Sport

What essential information do I need to know?

There may be opportunities for external visits and trips. You will need to purchase a sports kit (approximately £100) for use in practical sessions and at external events. Students are expected to complete a DBS check (£44 approx).

What can I do when I finish the course?

- Employment in the Sport and Leisure industry
- Further Level 3 study then onto Degree or Foundation Degree in Sport Coaching/ Fitness/Science
- PE Teaching (after a degree)
